

MANAGEMENT OF HEALTH AND SAFETY AT WORK REGULATIONS 1999 GENERAL RISK ASSESSMENT

| Activity / Environment / People | COVID-19 Reopening up after lockdown | Ref No. | COVID-19 Reopening |
|---------------------------------|--------------------------------------|---------|-----------------------|
|---------------------------------|--------------------------------------|---------|-----------------------|

| Task / Operation / Area Being Assessed | Opening up Palmers Campus after COVID-19 lockdown period for core staff |
|---|---|
|---|---|

Purpose / Method of Work

Assessing and managing the risk of reopening both campuses after the coronavirus lockdown period for staff and students. Implementing new working and learning operations on site which will include but is not an exhaustive list:

- Social distance working
- Social distance learning
- Importance of personal hygiene hand washing
- One way foot traffic routes
- Reduced class sizes
- Staggered starting times
- Staggered break times

Specific Legislative Requirements

Health and Safety at Work etc Act Management of Health and Safety at Work Regulations Provision and Use of Work Equipment Regulations Workplace (Health, Safety & Welfare) Regulations Manual Handling Operations Regulations Control of Substances Hazardous to Health Regulations

| Hygiene – hand washing, |
|-----------------------------------|
| sanitation facilities and toilets |

Signs in place to raise awareness of good handwashing technique, increased frequency, avoid touching face and to cough or sneeze into a tissue (catch it, bin it, kill it) or arm if tissue is not available.

Providing regular reminders and signage to maintain personal hygiene standards.

Hand sanitiser available at various locations on site.

Cleaning of toilets are part of a robust cleaning regime.

Removal of waste is part of a robust cleaning regime.

Receptionist present to prevent crowd forming in reception.

Line markings placed on the floor in reception and all common parts 2 metres apart for queue.

Front doors are automatically controlled.

Deactivating the turnstiles at the Seevic campus to prevent congestion in reception and installing barriers to divert foot traffic.

One way system devised to enter / exit / move around site including signage.

Maximum of 5 staff from any learning area and 6 students per learning space.

Adherence to government guidelines of social distancing and keeping 2 metres apart.

Regular hand washing and soap available in toilets.

Hand sanitiser stations placed in various key locations on campus.

Many doors within the building are held open with automatic releasing hold-open devices to reduce surface contact.

Reducing movement by discouraging non-essential trips within buildings, encourage use of radios and telephone.

Reduce capacity occupancy for lifts, encourage use of stairs wherever possible.

Making sure that people with disabilities are able to access lifts.

Staggering start and finish times for staff to reduce crowding at entrance points.

Increased exit points to reduce congestion.

2 metre social distance guidelines are enforced.

Controlling access and egress to site and movement around the building

Use of lifts

Coming to work and leaving work
